Existing Structure	1 story; 4 bed/3 bath	Year Built	1951
Subject	Pursuant to Articles IV, V and VI of Appendix A Zoning, Sec. 400 Schedule of Regulations and Sec. 600. Site plan review and approval required. One story addition, garage conversion and façade improvement.		
Action Required	Approve, Approve with Conditions, or Deny the Application	Other Required Approvals	Village Building Permits MDDRER/EPRD
Staff Report	David A. Dacquisto, Director, Planning and Zoning	Report Date	May 5, 2016

Background

The residence is on an interior plot facing north with an alley to the rear.

The applicant is proposing to convert an existing 325 sf attached garage at the front of the residence. The garage is being converted to storage and a cabana bath. The cabana bath is only accessible through a new exterior door to the side yard. The existing garage door will remain to access the storage area. Parking for 2 vehicles will be provided on the existing driveway.

The applicant is also proposing an addition to the rear of the residence. The 266 sf closet addition will be accessed from the master bedroom.

The applicant is proposing to add a pergola detail to the front of the residence. A second pergola is proposed over a new patio. A peak roof addition at the rear and adjacent the residence and pergola will provide shelter for an outdoor kitchen.

Analysis

The addition is compatible with the 1950's residence and will blend with the existing architecture.

The design is compatible with the neighborhood and community.

The proposal is consistent with the technical provisions of the Zoning Code.

Recommendation

In acting on a site plan, the Planning Board must make a finding that the proposed improvements comply with the regulations and are harmonious with the community, as required in Articles IV, V and VI of Appendix A Zoning, Sec. 400 and Sec. 600, of the Code of Ordinances, and, in that regard, may add further conditions or delete or modify staff recommended conditions, deny the application, or continue the item for future consideration.

Planning and Zoning staff recommends APPROVAL of the site plan to convert an attached garage to bathroom and storage, to construct a 266 sf closet addition, pergola and covered outdoor kitchen at the rear of the residence, and to add a pergola detail to the front of the residence, based on the foregoing analysis with a finding that it is consistent with the technical provisions of the Code except as noted and subject to the following conditions.

Should the board find that the applicant merits approval, staff recommends that the following conditions apply:

- 1) Approval is granted as shown on the plans submitted and made a part of this approval to convert an attached garage to bathroom and storage, to construct a 266 sf closet addition, pergola and covered outdoor kitchen at the rear of the residence, and to add a pergola detail to the front of the residence.
- 2) Applicant to maintain 2 legal parking spaces on the plot.
- 3) Applicant to obtain all required building permits before beginning work.
- 4) An erosion and sedimentation plan subject to review and approval by the building official is required if ground cover is removed or as required by the building official. Properly installed soil erosion measures (silt fences, straw barriers, etc.) and anti-tracking area at all construction entrances are required to be put in place and maintained if ground cover is removed or as required by the building official. Required erosion control measures must be in place prior to footings inspection.
- 5) The site shall not drain onto neighboring properties or any rights-of-way. The plot shall provide storm drainage that detains the first one inch in natural or filtered structural facilities. The applicant is responsible for any site modifications that become necessary to maintain storm drainage on-site that detains the first one inch in natural or filtered structural facilities. The Building Official may require an architect or engineer's drainage plan and report to certify to the building official that the site will provide storm drainage that will detain the first one inch in natural or filtered structural facilities prior to the drainage work commencing on site. The installation of structures on site to control drainage shall require Planning and Zoning Board review and approval. Modifications to the drainage plan approved by the building official shall require a signed architect or engineer's drainage plan that shall be subject to review and approval of the Building Official and the Planning Director. Changes to drainage structures approved by the Planning and Zoning Board shall require a new site plan review application and review and approval by the Planning and Zoning Board. Applicant to obtain all required building permits before beginning work.

- 6) All drainage improvements shall be installed in accordance with the approved drainage plan before final inspection by the Building Official.
- 7) The applicant shall repair and maintain the onsite drainage system in accordance with the approved drainage plan.
- 8) Applicant to obtain all required permits and approvals from the Miami-Dade Department of Regulatory and Economic Resources, Environmental Plan Review Division (DRER, EPRD) and the Miami-Dade Department of Health (DOH/HRS) as required.
- 9) Applicant to meet all applicable code provisions at the time of permitting.
- 10) Applicant to complete a covenant in the form of a "Declaration of Use" assuring the property is used only for a single family purpose, record the covenant with the Miami-Dade County Recorder and provide the planning director with a copy of the recorded document prior to the final inspection by the Building Official.
- 11) This zoning permit will lapse and become invalid unless the work for which it was approved is started within one (1) year of the signing of the development order by the board chair, or if the work authorized by it is suspended or abandoned for a period of at least one (1) year.
