NOVEMBER 2019 HOUSE OF THE MONTH

The Miami Shores Village House of the Month showcases a range of project types, styles & budgets & supports the Village's vibrant community.

10090 NE 12 Avenue

The Village could have easily chosen the property based on the home itself, but the main attraction of the home is the castle-like landscaping! The property's landscape is what really sets the house apart from the rest. The time and care to make sure the landscape stays this beautiful takes countless hours, labor and creativity. The design and layout of the bushes and hedges were created by their very own "in house" Landscape Designer, Stanley Matz. We take great pride in calling the Matz family part of the Miami Shores Village community.

Thank you Matz family for making *The Village Beautiful!*

Keeping Your Roof Clean...

DID YOU KNOW... that a dirty roof can actually raise your energy bill? The darker a roof gets, the more your air conditioning needs to work to keep the interior of your home at a constant temperature. With all of the rain, roofs tend to build up mildew. Keeping your roof clean not only saves you money on your energy bill, but will also reduce your impact on the environment by using less energy. The Code Compliance office would like to remind you to please ensure your roof is clean and free of mildew!
