“Automatic License Plate Recognition (ALPR) System”

Miami Shores Village RFQ No. 2017-08-27

Part I – Statement of Work

PART I - STATEMENT OF WORK

A. BACKGROUND AND OBJECTIVE

The Village is situated at the northeastern end of Miami-Dade County and is located in close proximity to I-95 and downtown Miami. The Village has multiple high volume roadways traversing the Village both North/South and East/West. The Village is bordered by Biscayne Bay (Intracoastal Waterway) on the east. Because of our unique geography, the Village seeks to install a fixed automatic license plate recognition System covering the vast majority of the vehicular entry and departure points in Village in order to assist us in preventing and solving crimes and in monitoring the location of criminal suspects. Several roadways involved (US1, SR915, and SR932) are state roadways under the control of the Florida Department of Transportation (FDOT). As of the date this RFQ is being issued, FDOT policy is to not allow LPR cameras to be installed on their right-of-way. Miami-Dade County Traffic Engineering Division has advised the Village that they, therefore, cannot permit ALPRs to be placed on the traffic signal mast arms that are located near these vehicular entrances. However, Miami-Dade County does allow installation on their right-of-way.

B. GENERAL INFORMATION ABOUT *Miami Shores Village*

Incorporated in 1932, Miami Shores Village is primarily a residential community with a permanent population of about 10,845. Barry University’s main campus is located within Miami Shores Village and has both an on-campus population as well as a daytime commuter population. With several major roadways creating a north/south corridor through our Village, we also have a good deal of transient traffic.

Miami Shores Village RFQ No. 2017-08-27

Part I – Statement of Work

C. SCOPE OF WORK

The Village is seeking proposals/qualifications from vendors for the purchase, installation, operation and maintenance of an Automatic License Plate Recognition (“ALPR”) System (“System”) which shall include both equipment and software necessary to operate the System. This System should be adequate to fully capture all vehicle travel lanes entering and leaving the Village, subject to further inspection and selection, at the following locations of vehicular entry and/or exit to the Village:

- 1) 105th Street & Biscayne Blvd,
- 2) 91st Street & N.E. 10th Avenue,
- 3) 96th Street & N.E. 10th Avenue,
- 4) 107th Street & N.E. 10th Avenue,
- 5) 107th Street & N.E. 6th Avenue,
- 6) 87th Street & Biscayne Blvd,
- 7) 88th Street & N.E. 6th Avenue,
- 8) 91st Street & N.E. 2nd Avenue,
- 9) 91st Street & N. Miami Avenue,
- 10) 95th Street & N.W. 3rd Avenue,
- 11) 103rd Street & N.W. 2nd Avenue,
- 12) 111th Street & N.W. 6th Avenue,
- 13) 115th Street & N.W. 5th Avenue,
- 14) 115th Street & N.W. 2nd Avenue,
- 15) 115th Street & N. Miami Avenue,
- 16) 115th Street & N.E. 2nd Avenue,
- 17) 111th Street & N.E. 2nd Avenue,

The Village recognizes that the cameras may not be able to be located at exactly those locations due to FDOT’s refusal to allow their right-of-way to be utilized for this purpose. Alternate locations may be proposed and discussed with the selected vendor.

The ALPR System shall be capable of clearly scanning and analyzing every license plate of every car that enters and leaves the Village. The System should take all plates captured by the ALPRs and compare them in real-time to databases provided by the Florida Department of Law Enforcement (FDLE), including FCIC and NCIC databases. The System shall download an unlimited number of hotlists from FDLE and the Miami Shores Police Department (MSPD) via FTP on a scheduled basis as allowed by those agencies. The System shall store all hotlists and databases on a central server at MSPD.

The System should provide a robust, simple-to-use user interface that allows for plate monitoring, partial tag searches, retroactive plate searches, and hotlist management. In addition, the interface should allow for map-based viewing of the System. The System shall be capable of and configured to automatically send an alert to MSPD Officers when specified license plates or plates on the hotlists pass the ALPR and or meet specified criteria defined within the System.

“Automatic License Plate Recognition (ALPR) System”

Miami Shores Village RFQ No. 2017-08-27

Part I – Statement of Work

It is desirable to have the alerts from the system go directly to the laptops of the MSPD Officers on shift at the time the alert is sent. The System should allow alerts to be sent to specific users based on filters and send global alerts as well. All cameras in the System shall be fully operational regardless of weather, daylight, or nighttime conditions with the exception of hurricane force winds.

The back-office server application must provide user-friendly, pre-defined reports, and the ability to export data and/or reports in a variety of formats, including EXCEL, WORD and PDF formats.

D. TECHNICAL REQUIREMENTS

The vendor must have a minimum of three years’ successful experience in providing and operating such Systems to local government units, be licensed to operate in the State of Florida, and have appropriate credentials and licensing to work with the databases to be accessed by the System.

E. INSURANCE AND LICENSES

Under the terms and conditions of all contracts, leases, and agreements, the Village requires appropriate coverage listing Miami Shores Village as Additional Insured. This is done by providing a Certificate of Insurance listing the Village as “Certificate Holder” and “Miami Shores Village is Additional Insured as respect to coverages noted,”. Insurance companies providing insurance coverages must have a current rating by A.M. Best Co. of “B+” or higher. (NOTE: An insurance contract or binder may be accepted as proof on insurance if Certificate is provided upon selection of the service provider.) The following is a list of types of insurance required and the limits required by the Village. NOTE: This list is not all inclusive, and the Village reserves the right to require additional types of insurance, or to raise or lower the stated limits, based upon identified risk.

Worker’s Compensation	Statutory Limits	
Employer’s Liability	Each Occurrence	\$ 100,000

Part I – Statement of Work

Failure to Maintain Coverage: The service provider agrees to suspend and cease all operations hereunder during such period of time as the required insurance coverage is not in effect and evidence of insurance has not been furnished to the Village. The Village shall have the right to withhold any payment due the service provider until compliance with the insurance provisions of this Agreement are satisfied.
