Staff Report	David A. Dacquisto, Director, Planning and Zoning	Report Date	January 6, 2016

Background

The applicant is proposing a one-story addition of 576 sf in the rear south-east corner of the existing residence.

The addition is located 40 ft. from the side plot and 16.75 ft. from the rear plot line.

The addition will include a master bedroom and bath as well as a walk in closet. The addition is accessible internally from the new family room/dining room and also opens through French doors to the side yard and a future pool.

The applicant will construct an attached pergola on the east side of the house

The addition will match the architecture of the existing residence. The sloped clay color tile roof of the existing residence will be extended to the addition.

Analysis

The addition is compatible with the 1950's residence and will blend with the existing architecture.

The design is compatible with the neighborhood and community.

The proposal is consistent with the technical provisions of the Zoning Code.

Recommendation

In acting on a site plan, the Planning Board must make a finding that the proposed improvements comply with the regulations and are harmonious with the community, as required in Articles IV, V and VI of Appendix A Zoning, Sec. 400 and Sec. 600, of the Code of Ordinances, and, in that regard, may

add further conditions or delete or modify staff recommended conditions, deny the application, or continue the item for future consideration.

Planning and Zoning staff recommends APPROVAL of the site plan to construct a one-story 576 sf master bedroom, bath and walk-in closet addition, based on the foregoing analysis with a finding that it is consistent with the technical provisions of the Code subject to the following conditions.

Should the board find that the applicant merits approval, staff recommends that the following conditions apply:

- 1) Approval is granted as shown on the plans submitted and made a part of this approval to construct a one-story 576 sf master bedroom, bath and walk-in closet addition.
- 2) The applicant shall provide an architect or engineer's drainage plan and report to certify to the building official that the site provides storm drainage that detains the first one inch in natural or filtered structural facilities prior to the issuance of a building permit by the Building Official.
- 3) The applicant is responsible for the installation and maintenance of drainage structures and any site modifications shown on the drainage plan that are necessary to provide storm drainage that detains the first one inch in natural or filtered structural facilities.. Minor modifications to the approved drainage plan shall require a new signed architect or engineer's drainage plan that shall be subject to review and approval of the Building Official and the Planning Director. Major changes to the approved drainage plan including the construction of drainage improvements such as but not limited to mounds and walls, shall require a new site plan review application and review and approval by the Planning and Zoning Board.
- 4) All drainage improvements shall be installed in accordance with the approved drainage plan before final inspection by the Building Official.
- 5) The applicant shall repair and maintain the onsite drainage system in accordance with the approved drainage plan except that major changes shall require Planning and Zoning Board approval as stated in Condition #3.
- 6) An erosion and sedimentation plan subject to review and approval by the building official is required if ground cover is removed or as required by the building official. Properly installed soil erosion measures (silt fences, straw barriers, etc.) and anti-tracking area at all construction entrances are required to be put in place and maintained if ground cover is removed or as required by the building official. Required erosion control measures must be in place prior to footings inspection.
- 7) Applicant to obtain all required permits and approvals from the Miami-Dade Department of Regulatory and Economic Resources, Environmental Plan Review Division (DRER, EPRD) and the Miami-Dade Department of Health (DOH/HRS) as required.
- 8) Ground cover shall comply with the provisions Division 17 of Appendix A, Village of Miami Shores Code of Ordinances, artificial turf and rock of any kind is specifically prohibited.
- 9) Applicant to meet all applicable code provisions at the time of permitting.
- 10) This zoning permit will lapse and become invalid unless the work for which it was approved is started within one (1) year of the signing of the development order by the board chair, or if the work authorized by it is suspended or abandoned for a period of at least one (1) year.
